

# Bridges for life

Afternoon session

**17 June 2014**

15:00 - 17:00

## Building on dedication

Toni Rüttimann travels the world alone to build bridges for poor villages.

No organisation behind him.  
No salary or budget. No engineers,  
infrastructure, or quality procedures.

Just the villagers' own labour and  
Toni's ability to lead, organize and  
motivate.

In this way Toni has built more than  
660 bridges in some of the world's  
poorest regions, enabling some 2  
billion people to get to markets,  
schools and hospitals.

This is a story of essential leadership:  
Creating a shared vision with people  
and make it come true together.  
We hope it will inspire you too.

Price: 80 DKK incl refreshments  
FREE entrance with student ID
